Competency

Tell me about a time when you proactively perceived challenges/roadblocks while resolving a client issue.

How did you perceive those challenges?
What measures did you take to fix them?
What were the multiple dependencies that you took into account while planning and implementing the changes?

Share an instance when you went beyond your call of duty to meet client expectations.

What did you do to excel in that situation?
Were there any aspects of the situation that you hadn't prepared for? How did you deal with them?

Share an instance in the last 6month- 1 year when you had to stay focused and follow a disciplined approach to meet your business goals without compromising on time, cost and quality during execution

How did you go about it?
How did you use your project management skills to stay on track to meet your deliverables?

Appraisee Overall Comments

I'll make sure to complete my work along with standard guidelines. I'll try myself to improve more so I can increase my productivity towards the tasks that are assigned and corporate meetings consistently. I will make sure I follow the company procedure and keep improving both w.r.t individual and also to the company.
